

Modul minggu ke-5

ANALISIS DAN MODELING

BERFIKIR KRITIS

Sistem akademik memberikan layanan agar Mahasiswa dapat melihat KRS-nya dan jika diperlukan dapat melihat prosedur KRS. Mahasiswa juga dapat mengisi biodata orang tuanya.

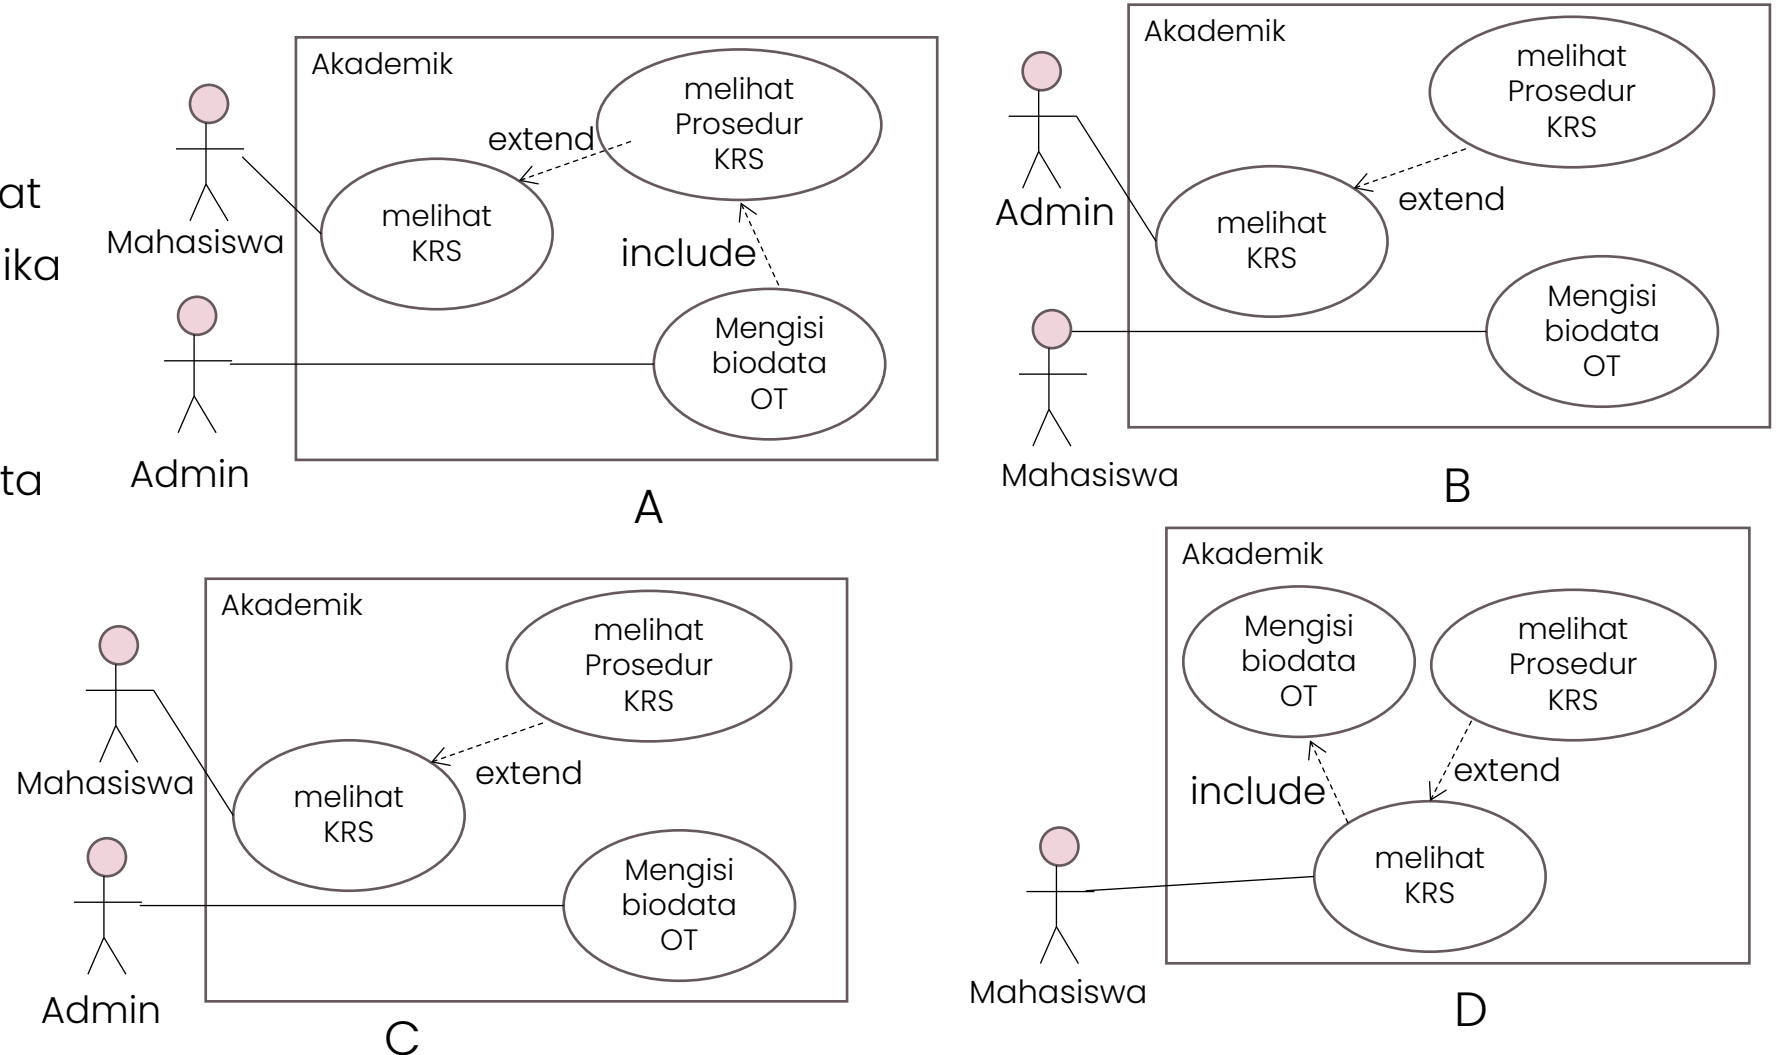

Mana yang benar?

BERFIKIR KRITIS

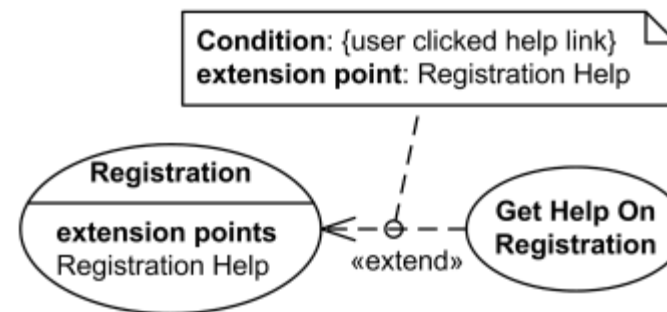

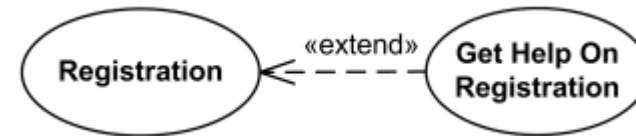

Sistem akademik memberikan layanan agar Mahasiswa dapat melihat KRS-nya dan jika diperlukan dapat melihat prosedur KRS. Admin mengisi biodata orang tuanya.

Mana yang benar?

KONSEP DAN PRINSIP USECASE DIAGRAM: EXTEND

Extend is a directed relationship that specifies how and when the behavior defined in usually supplementary **(optional)** extending use case can be inserted into the behavior defined in the **extended use case**. (UML 2.5)

BERFIKIR KRITIS DAN AKTUALISASI

Sistem akademik memberikan layanan agar Mahasiswa dapat melihat KRS-nya dan jika diperlukan dapat melihat prosedur KRS dan persyaratan KRS.

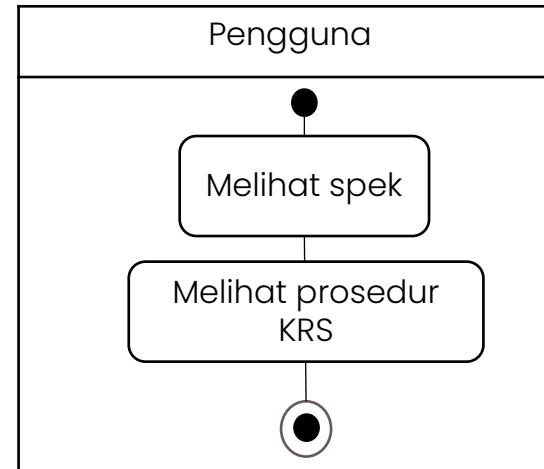

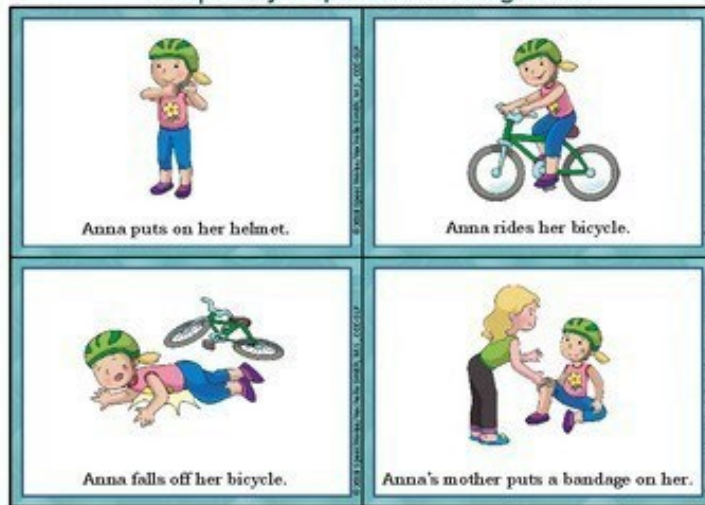

Seperti apa diagram usecasenya ?

Sistem akademik memberikan layanan agar Mahasiswa dapat melihat KRS-nya dan dapat melihat prosedur KRS dan persyaratan KRS.

ACTIVITY DIAGRAM

4 Step Story Sequence #1: Riding a Bike

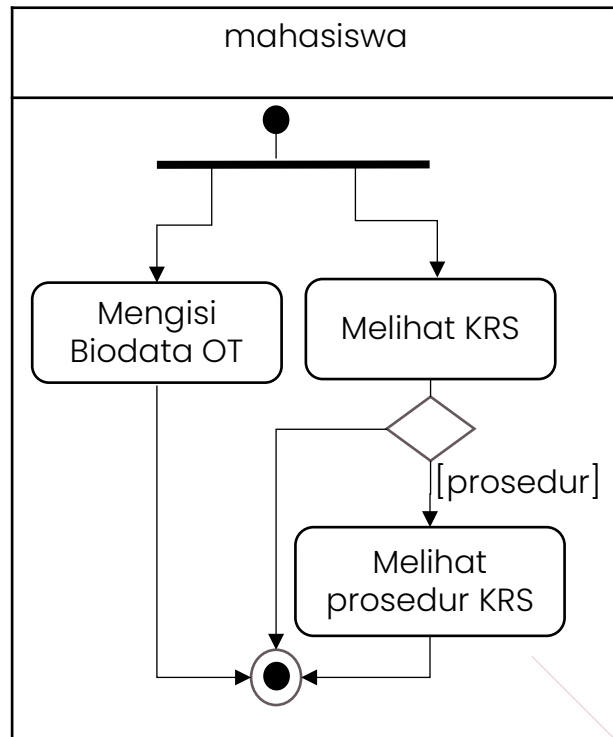

BERFIKIR KRITIS

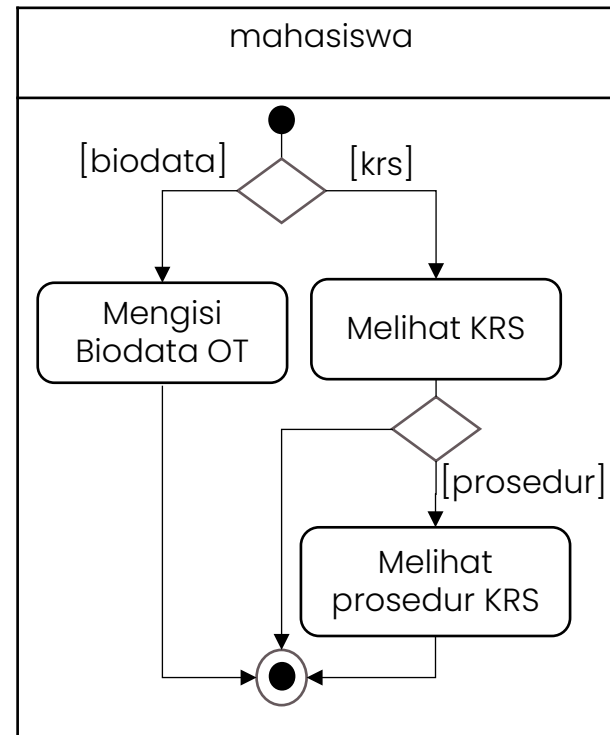

Sistem akademik memberikan layanan agar Mahasiswa dapat melihat KRS-nya dan jika diperlukan dapat melihat prosedur KRS. Mahasiswa juga dapat mengisi biodata orang tuanya.

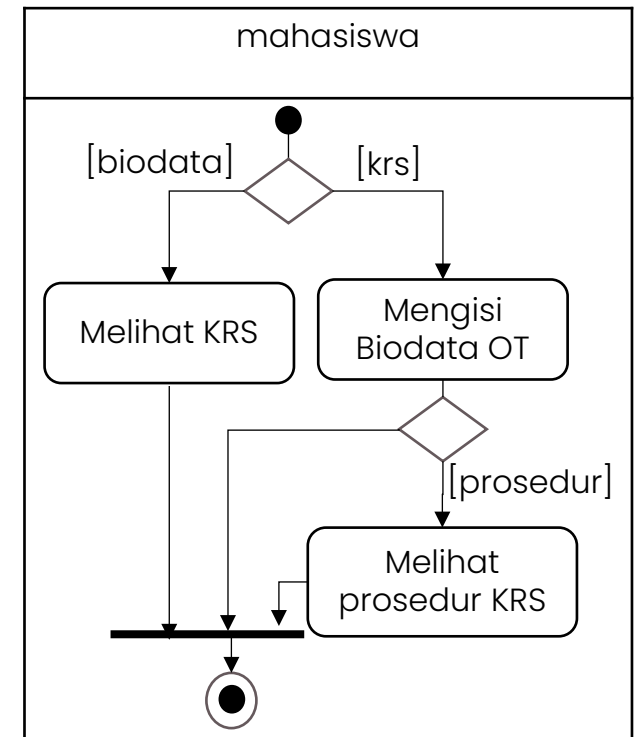

A

B

C

KONSEP DAN PRINSIP ACTIVITY DIAGRAM: FORK

A **ForkNode** is a ControlNode that splits a flow into multiple concurrent flows. A ForkNode shall have exactly one incoming ActivityEdge, though it may have multiple outgoing ActivityEdges. If the incoming edge is a ControlFlow, then all outgoing edges shall be ControlFlows and, if the incoming edge is an ObjectFlow, then all outgoing edges shall be ObjectFlows. UML 2.5

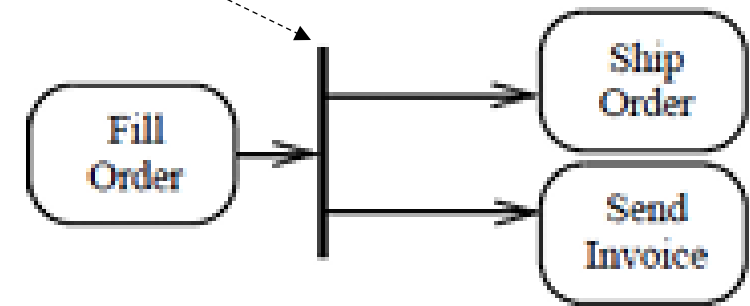

Figure 15.36 **ForkNode** example

KONSEP DAN PRINSIP ACTIVITY DIAGRAM: JOIN

A JoinNode is a ControlNode that synchronizes multiple flows. A JoinNode shall have exactly one outgoing ActivityEdge but may have multiple incoming ActivityEdges. If any of the incoming edges of a JoinNode are ObjectFlows, the outgoing edge shall be an ObjectFlow. Otherwise the outgoing edge shall be a ControlFlow. UML 2.5

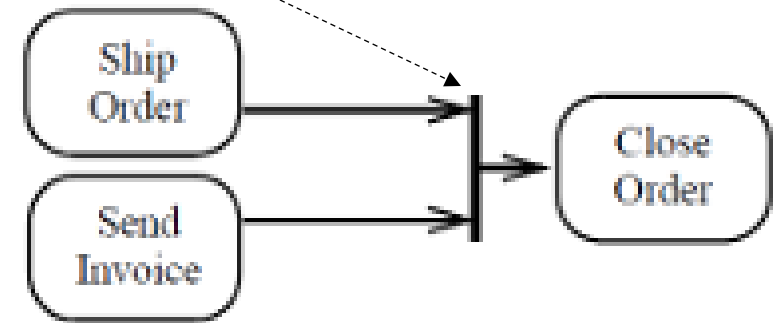

Figure 15.37 JoinNode example

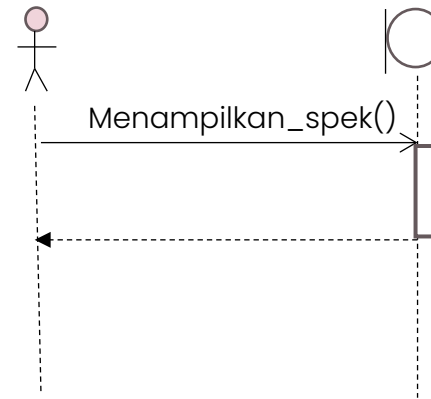

BERFIKIR KRITIS

Sistem akademik memberikan layanan agar Mahasiswa dapat melihat KRS-nya dan dapat membayar tagihan KRS di Bank BNI46. Sistem akan mengirim tagihan dan nomor VA ke Bank BNI46, dan pada saat yang bersamaan sistem mengirim pesan WA tagihan dan nomor VA ke HP-nya. Setelah mahasiswa membayar di BNI46, sistem BNI46 akan mengirim status terbayar ke Usakti.

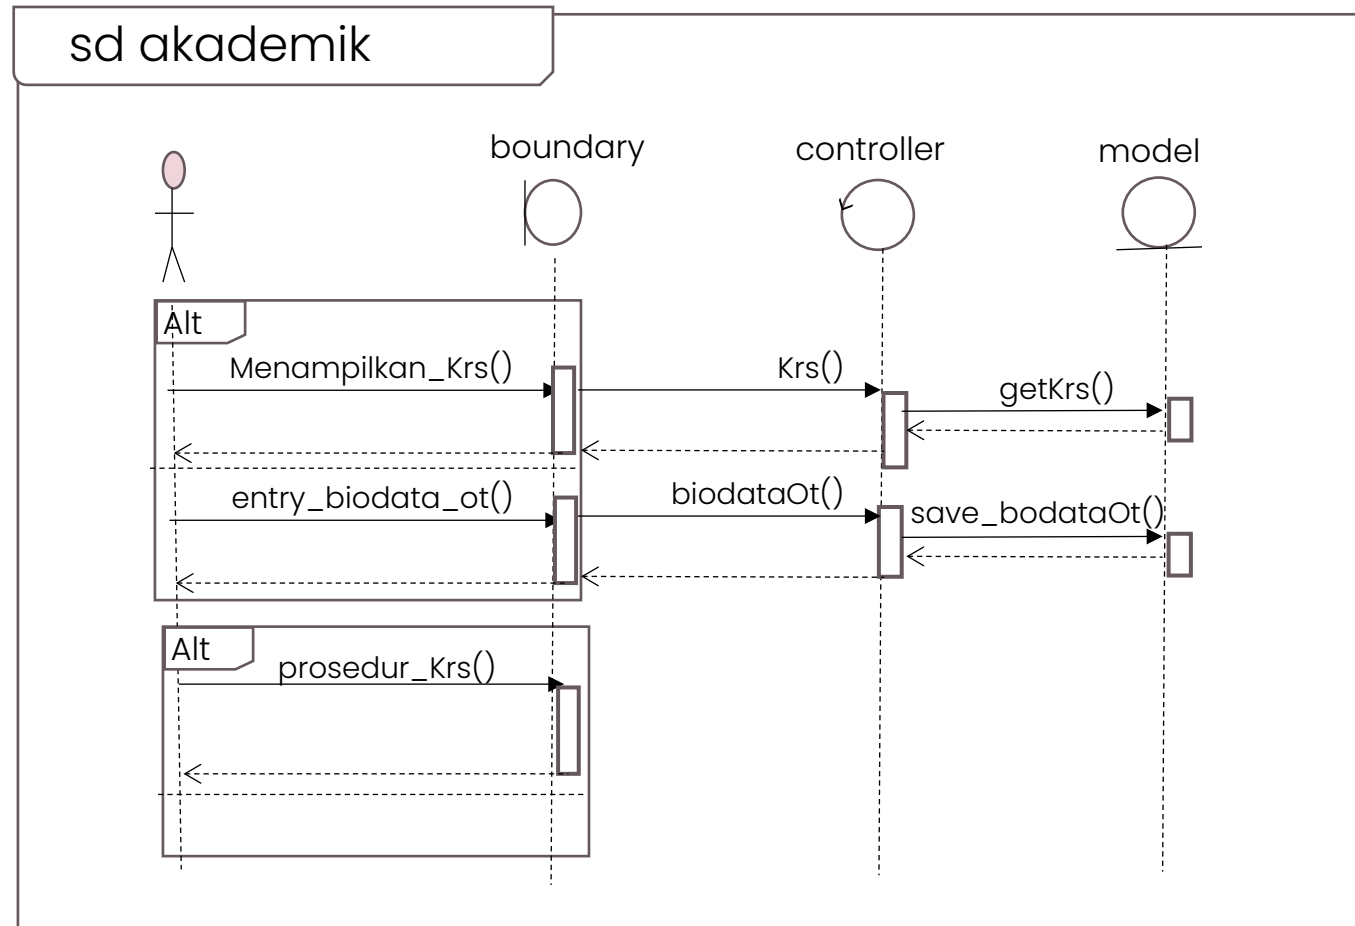

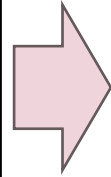

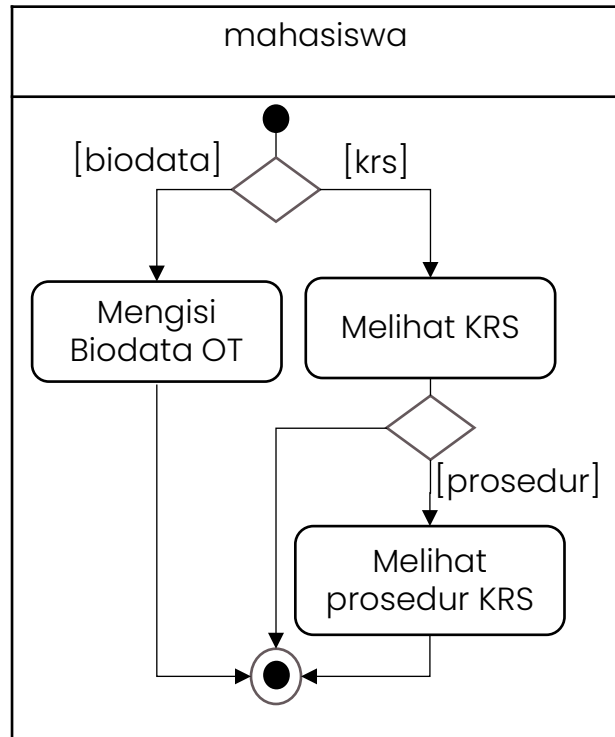

Buatlah diagram usecase dan activitinya?

Kerjakan secara berkelompok dan diskusikan hasilnya

BERFIKIR KRITIS CLASS DIAGRAM

BERFIKIR KRITIS CLASS DIAGRAM

KONSEP DAN PRINSIP CLASS DIAGRAM

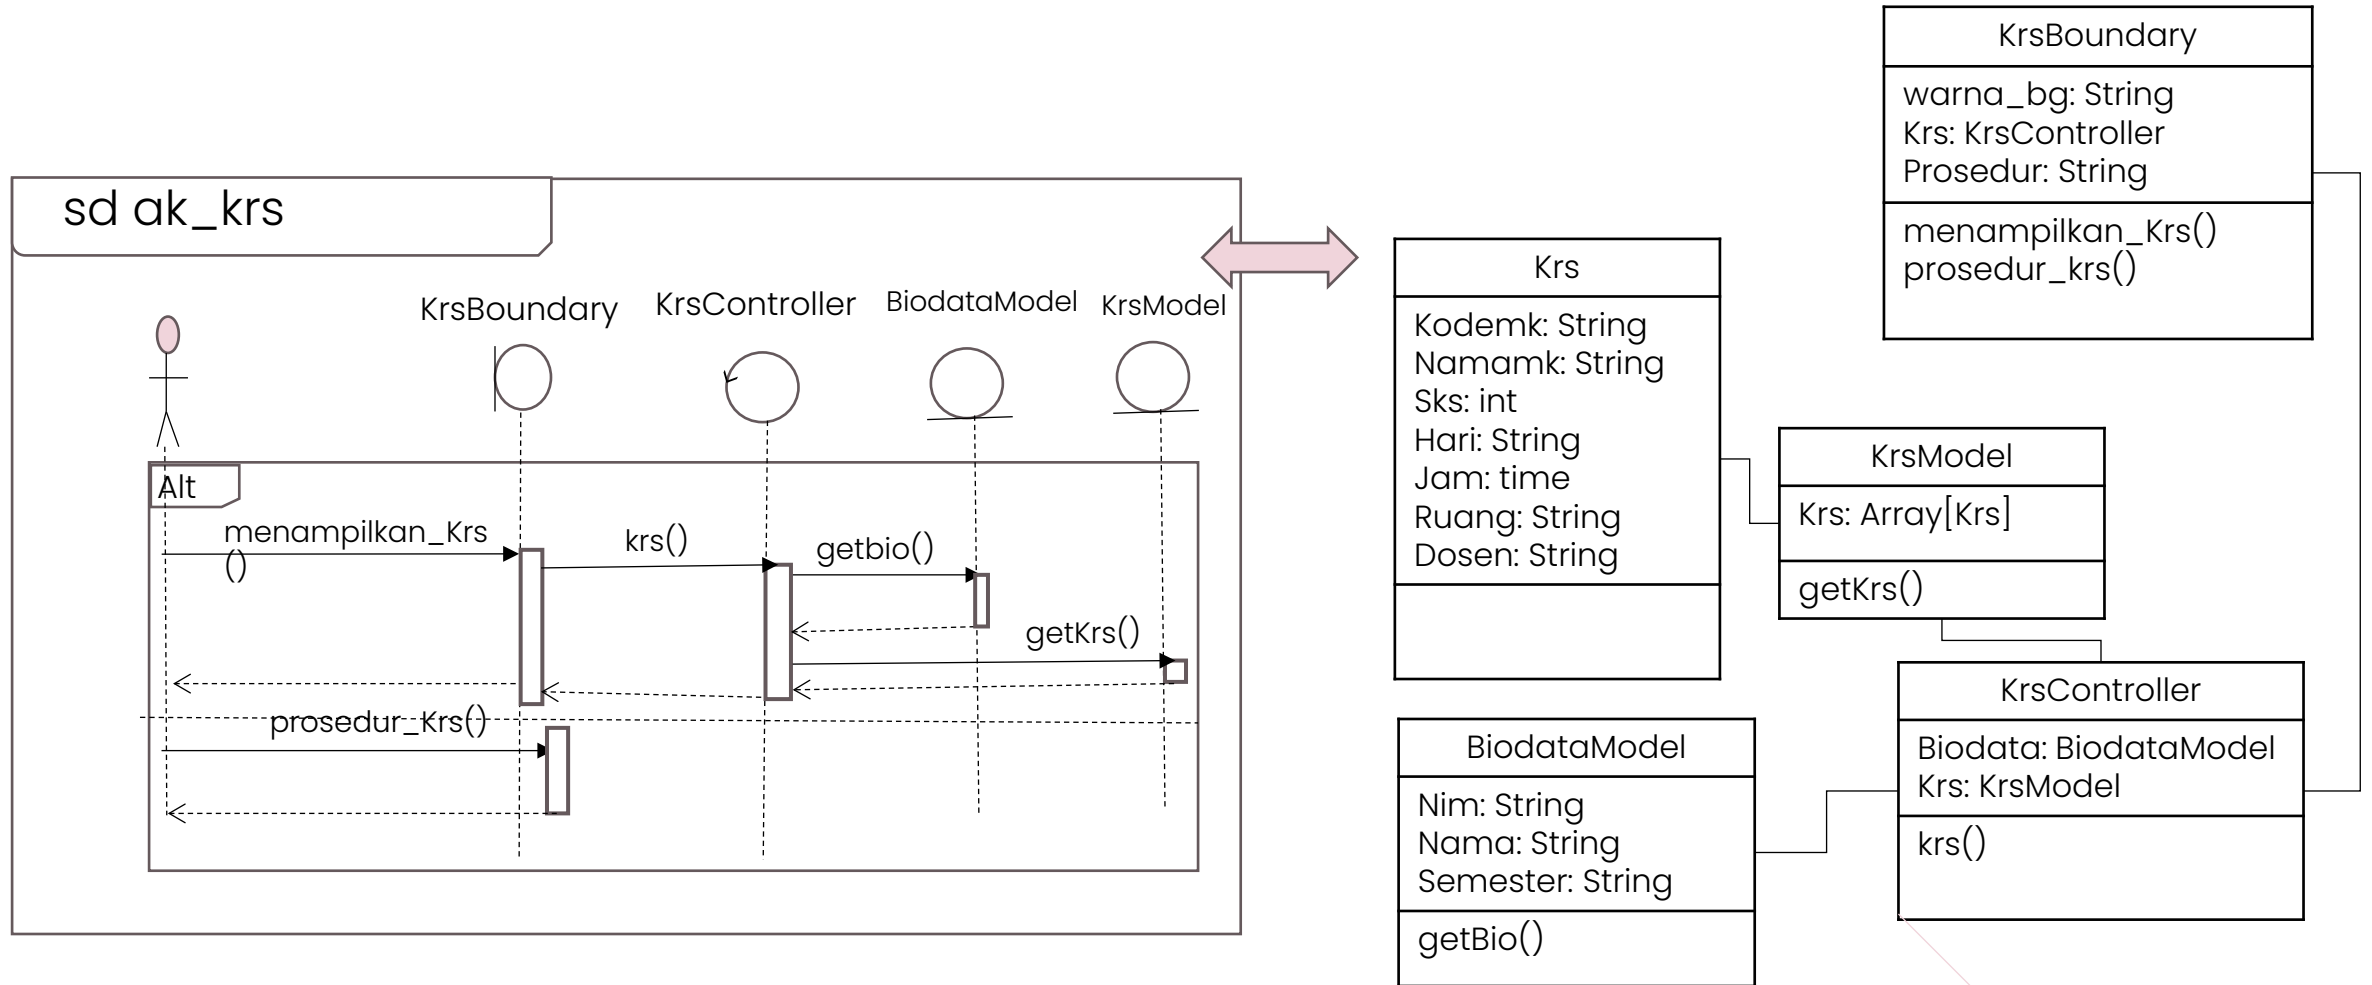

Class diagram is UML structure diagram which shows structure of the designed system at the level of classes and interfaces, shows their features, constraints and relationships - associations, generalizations, dependencies, etc. UML 2.5

	Boundary	Controller	Model
Boundary	Ok	Ok	No
Controller	Ok	Ok	Ok
Model	No	Ok	Ok

PEKERJAAN KELOMPOK

- Pilih hasil pemodelan individu menjadi tugas kelompok
- Perbaiki sesuai dengan hasil verifikasi ke kelompok lain atau dosen pengampu
- Kumpulkan di LMS, sebagai hasil kelompok (sertakan hasil pekerjaan kelompok pada matakuliah UI/UX)

KONSEP dan PRINSIP

[\[UML 2.5 FTF - Beta 1\]](#) moved use cases out of behavior modeling to UML **supplementary concepts**.

KONSEP dan PRINSIP
